# Why this course?

Cloud Based – Focus on Current Best Practices

Learn Most Useful Algorithms

Easy to integrate

Elastic Cloud Handles Data of Any Size

No upfront Cost or Commitment – Pay as you go

# AWS Machine Learning Services

Service	Purpose
<a href="#"><u>AWS Machine Learning</u></a>	Easy to use Cloud Based ML service Perfect for beginners Linear Model - Regression, Binary Classification, Multinomial Classification
<a href="#"><u>AWS SageMaker</u></a>	Managed Jupyter Notebook environment Distributed Training Scalable Real Time Prediction Wide choice of ML Algorithms or bring your own
<a href="#"><u>Application Services</u></a>	Pre-trained Services Vision, Conversational Chatbots, Language Services
