Congratulations on completing the AWS Machine Learning, SageMaker and AI course!

In this course, you gained hands-on experience on the most popular and powerful machine learning algorithms.

With cloud-based service and pay-as-you-go model, it is very easy to integrate with your application. AWS SDKs has support for wide variety of programming languages.

Stay tuned for new lectures on other algorithms supported by AWS.

Please do leave a review and rating for the course.

Happy Coding!
